Moai statues, Chile

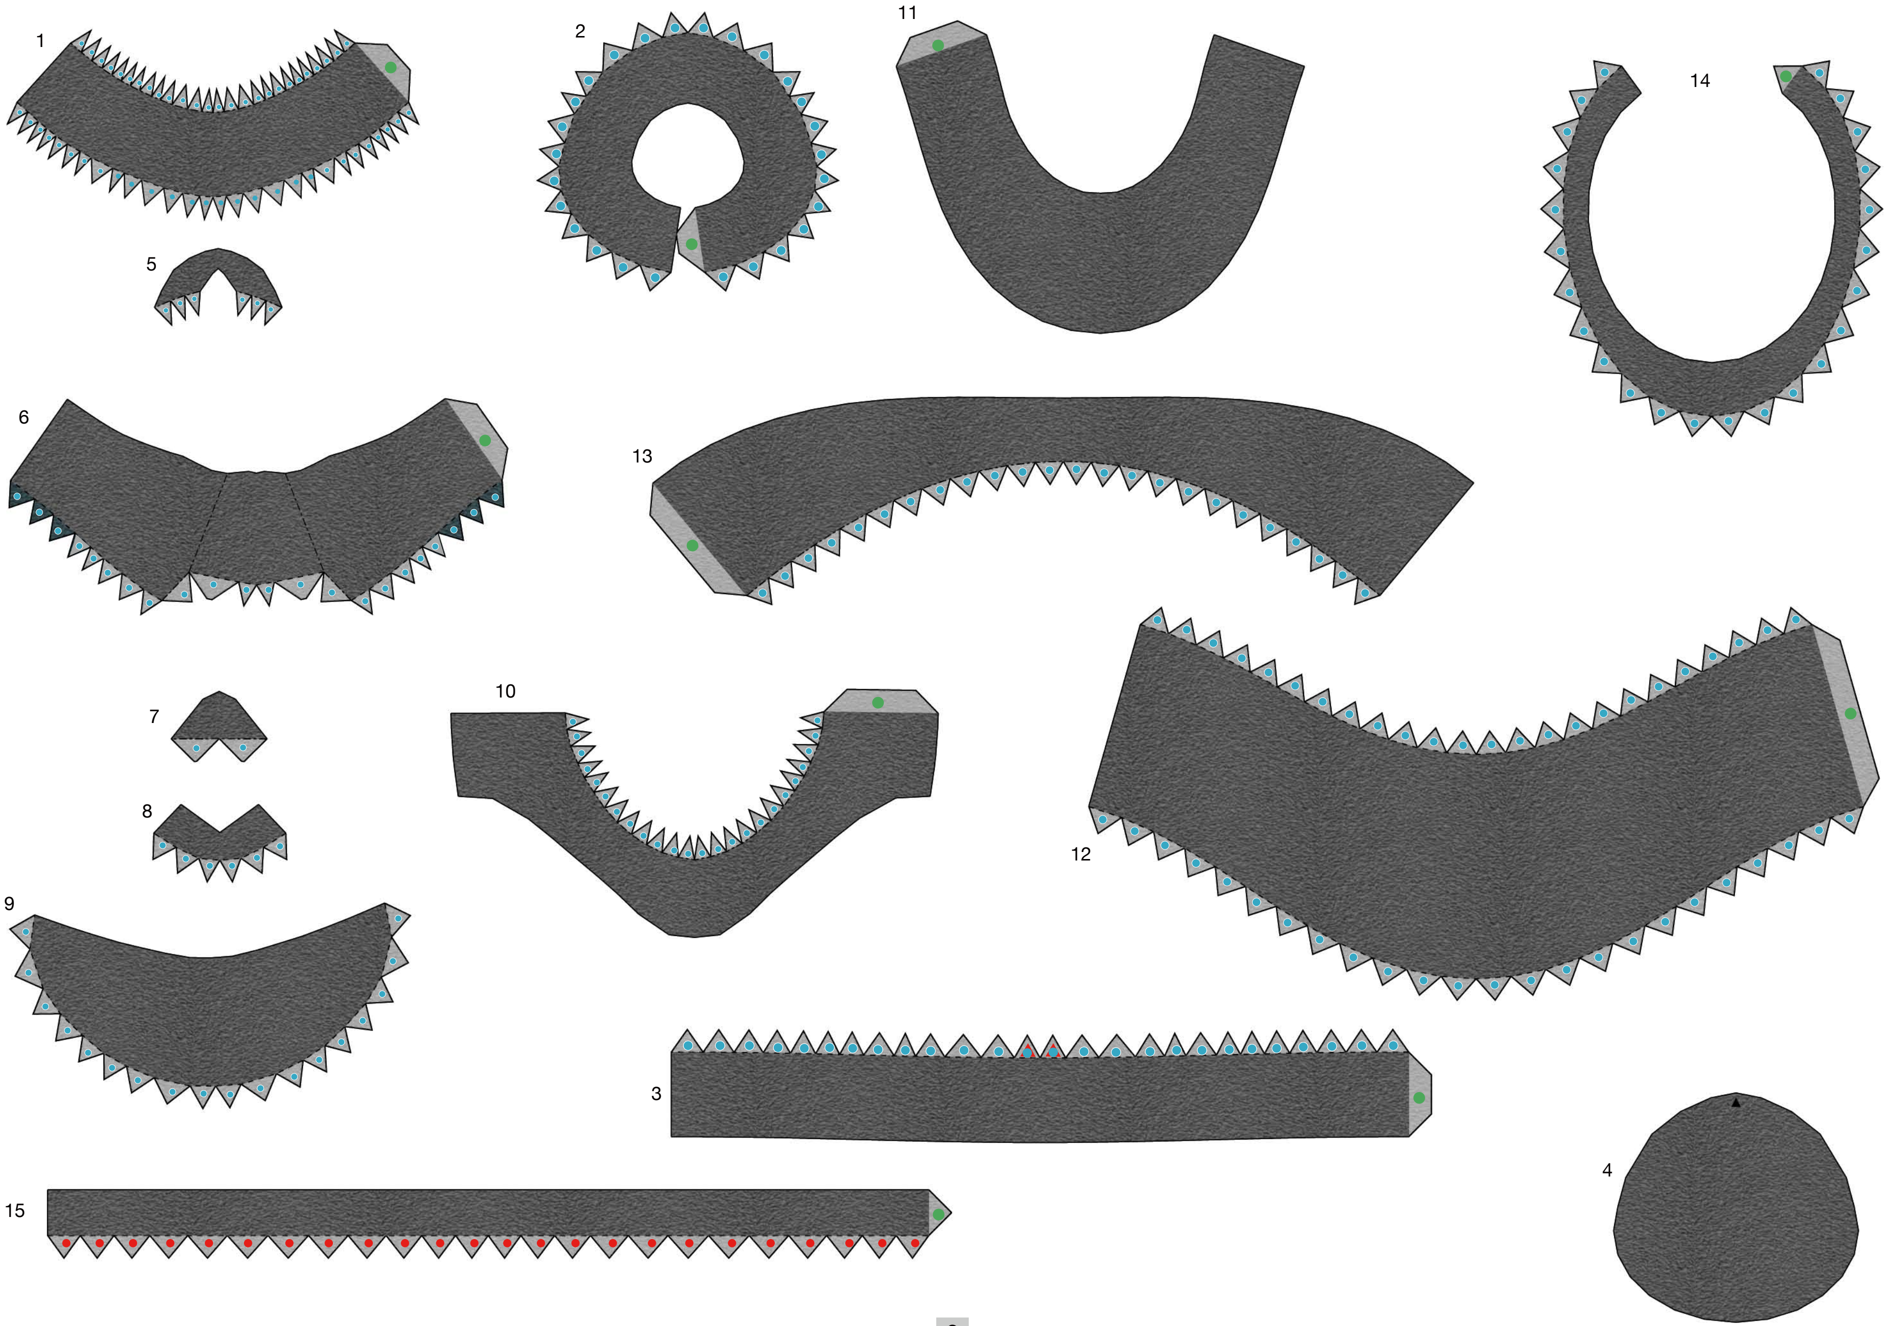

Construction on the Moai statues on Easter Island (governed by Chile) is said to have begun as early as the eighth century, only to come to an abrupt halt one day in the 17th century. Made of Easter Island's compressed volcanic ash, these statues may have served a religious purpose. Their true purpose and meaning remain a mystery.

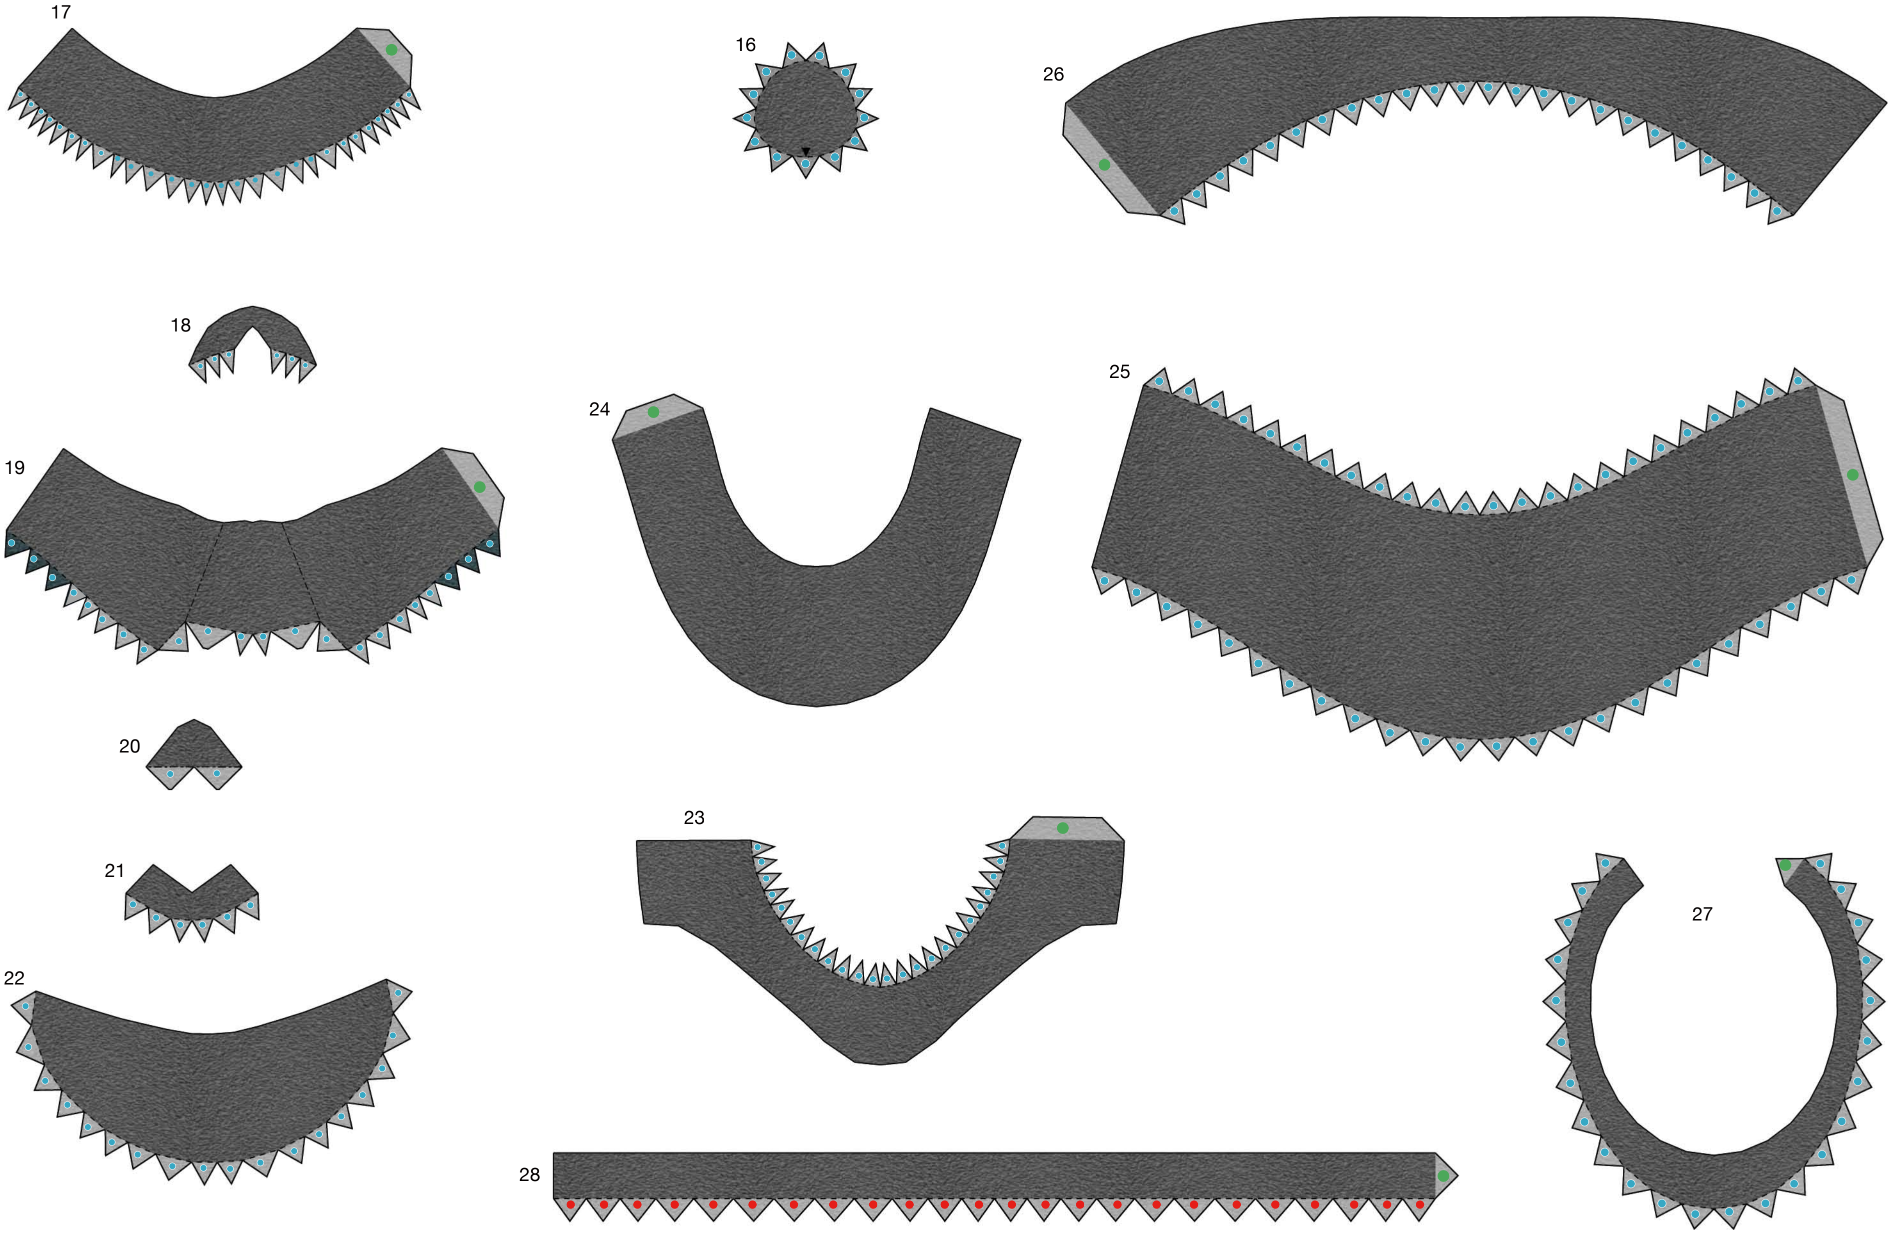

*This model was designed for Papercraft and may differ from the original in some respects.

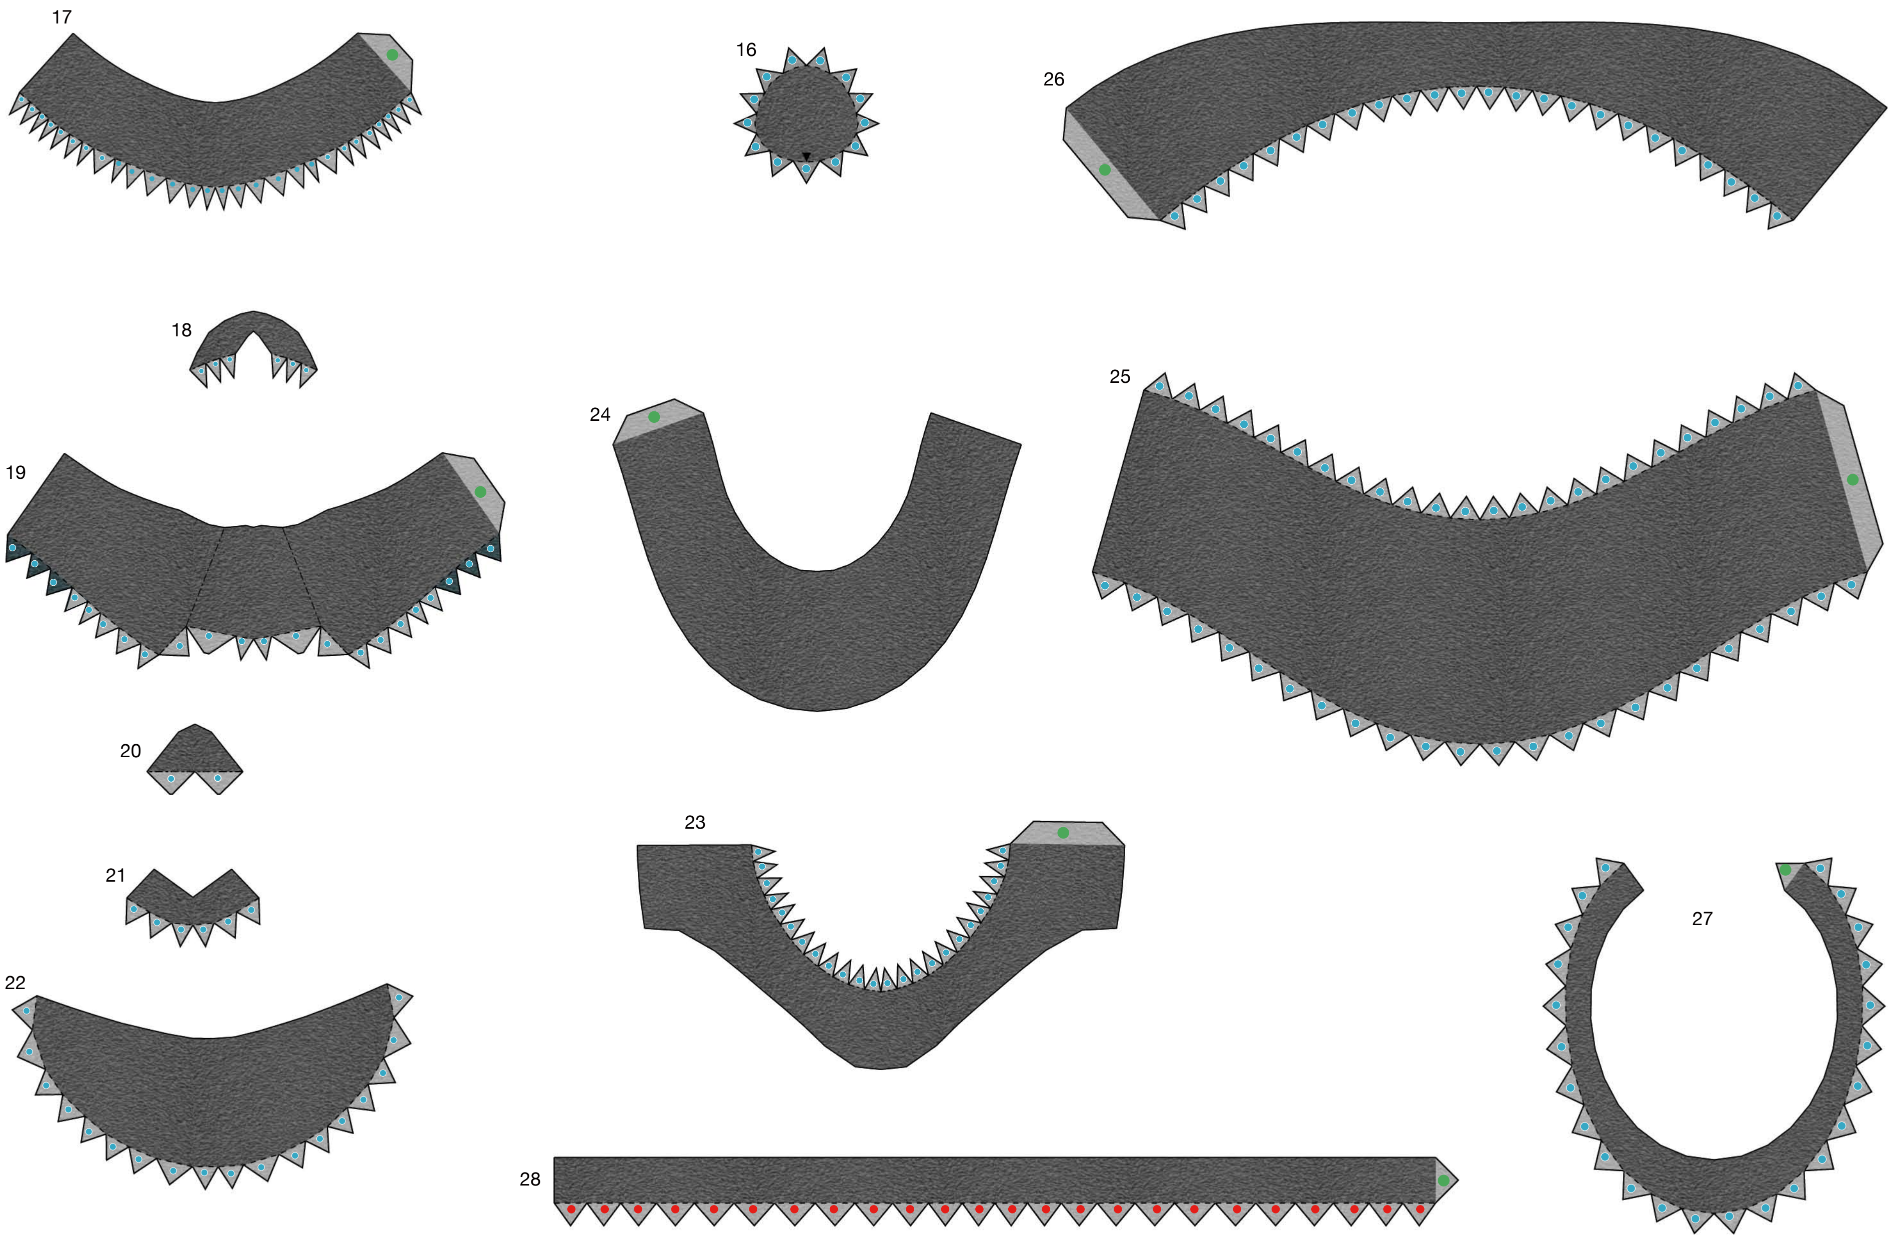

- Parts list(pattern):Seven A4 sheets(No.1 to No.7)
- No. of Parts:51

*Build the model by carefully reading the Assembly Instructions, in the parts sheet page order.
